NO! There is no fee!

NO!

How are eStore orders processed?

Through the PayPal e-commerce gateway which is safe and secure using payment encryption technology.

How will we know if someone makes a purchase through our web site?

After each purchase, an Affiliate receives a copy of the sale transaction issued to us by PayPal providing the date and amount of the transaction.

We issue payments to the Affiliate's PayPal account whenever earnings reach \$100+ (USD).

Can we use our school Facebook® account page for Creatives?

Probably not, as Facebook® has a rule against it (unless it has recently changed). You can, however, tell your followers how they can purchase through your web site.

Can our customers purchase from their computer?

Yes. They can also purchase from a tablet or a smartphone if your school website is a responsive format!

Yes! The PayPal Transaction notification usually has a customer e-mail for you to use.
